

AP50 Fully Automatic Pneumatic Grommet Setting Machine

Our most powerful grommeting machine for difficult material applications. Upgraded pneumatics for fast settings (40 grommets with washers per minute). Feeds parts, punches and sets grommets with washers in one pneumatic operation. No electricity required.

- Feeds grommet and washer, cuts hole and makes setting in one cycle
- Fast cycle time – 40 grommets per minute
- Grommet sizes up to #5 Stainless Steel and #6 Brass
- Multiple material thicknesses may be used without adjustment
- Fully pneumatic, no electricity required
- Positive washer positioning by slide mechanism
- Safe and easy to use

TECHNICAL SPECIFICATIONS

Feature	Imperial	Metric
Grommet size (hole diameter) – SS	1/4" – 3/4"	6 mm – 20 mm
Grommet size (hole diameter) – Brass	1/4" – 3/4"	6 mm – 20 mm
Throat depth	4 1/2"	115 mm
Machine weight (Bench model)	289 lbs	131 kgs
Machine size on bench (DxWxH)	36" x 24" x 63"	91 cm x 60 cm x 158 cm
Working air pressure	80 – 100 psi	6 – 7 bar
Air consumption per cycle	0.039 ft ³	1.4 L
Cycles per minute	40	
Electrical devices	Laser pointer (optional)
